Research Scientist

- 🐾 Data Collection
- 🐾 Grant Development
- 🐾 Prepare Research Papers
- 🐾 Facilitate Project Conduct
- 🐾 Conduct Qualitative Methods and Analysis

HEALTH Research Institute

Helping Everyone Achieve a LifeTime of Health

OUR VALUES

 **Innovation** – Pursuit of innovative and rigorous scientific inquiry that generates new knowledge which leads to a sustainable impact on mitigating – and ultimately eliminating – health disparities.

 **Empowerment** - Capacity to partner with stakeholders to derive a shared vision that empowers community-embedded change agents who are equipped to improve their quality and length of life.

 **Solutions** - Working with our community to discover and promote sustainable solutions to real-world health challenges.

DRIVEN BY COMMUNITY EXPERTISE

The HEALTH Research Institute builds strong partnerships with community stakeholders in Houston and beyond to inform research, intervention and dissemination strategies, and includes an active Community Advisory Board with partners representing a diverse range of interests, experience, and expertise.

MULTIDISCIPLINARY LEADERSHIP

Our leadership team includes a Director (Dr. Obasi), Co-Director (Dr. Reitzel), and an Executive Board comprised of UH faculty and community representatives. Moreover, members of the HEALTH Research Institute currently span Biomedical Engineering; Graduate College of Social Work; College of Medicine; The Law Center; Health and Human Performance; Psychological, Health, & Learning Sciences; and the Psychology Department.
